

## Blue Pearl Software

January 13, 2011

### **Blue Pearl Software expands international presence with the addition of representatives in Europe and Asia.**

**SANTA CLARA, Calif.**—( PRWEB)—**Blue Pearl Software**, a leader in timing path analysis solutions for advanced ASIC and FPGA designers, today announces the expansion of its worldwide presence with the addition of distribution partnerships in Israel, Korea and Taiwan. Blue Pearl's software improves productivity of semiconductor chip design by providing high performance, innovative, automated tools to generate and validate critical timing and functional information early in the design cycle. Designers using Blue Pearl's solutions can lower design risk, improve the quality of results, save time and reduce the cost of their chip design process. With the latest software release Blue Pearl supports any combination of the common hardware description languages like Verilog, SystemVerilog and VHDL for Clock Domain Crossing (CDC) check, automatic SDC timing constraints generation, and longest path analysis using the Visual Verification environment.

"The addition of EGDS, Grand Technology Inc. and Incusolution reinforces Blue Pearl's ability to advance into key markets," said Ellis Smith, CEO for Blue Pearl Software. "Along with our existing sales and distributor channels, these new partners' broad experience and proven track record of servicing EDA customers will be crucial in assisting customers in Europe and Asia."

The partnerships will strengthen the personalized sales and customer service offerings that Blue Pearl values by providing local support for its customers. Furthermore, to accelerate familiarity with its software Blue Pearl is offering [free hands-on workshops](#) at Blue Pearl's headquarters and is making the software available on the cloud at <http://www.bluepearlsoftware.com/testdrive>.

About EGDS

EGDS is a European Sales Agent Company with offices in France and Israel representing software companies specialized in EDA, IP's and Embedded development. For more information go to [www.egds.co.il](http://www.egds.co.il)

#### About GTI

Based in Taiwan, Grand Technology Inc., GTI is a leading pure application-specific software representative with a clear focus on providing the best available tools for the development of future chip and micro system technologies. Visit us at [www.grandti.com.tw](http://www.grandti.com.tw)

#### About Incusolution

Incusolution, with its main office in Korea, develops its own technology to be the world's best design company with highly qualified engineers and supports the sales of well-developed IP and EDA tools. Contact us at [www.incusolution.com](http://www.incusolution.com)

#### About Blue Pearl Software

Headquartered in Santa Clara, Calif., Blue Pearl Software is a privately held electronic design automation (EDA) company committed to reducing iterations in digital design flows and improving design productivity. Visit Blue Pearl Software at <http://www.bluepearlsoftware.com>.
